Role: Automation & Systems Engineer (Tech)

Company: Adbureau Analytics Private Limited

About Us:
Adbureau Analytics is an AI & Data Science company helping D2C brands and enterprises drive revenue through audience modeling, marketing analytics, and AI-driven growth systems.

This internship is focused on building a real revenue pipeline (₹50L+ deal size clients). This is not an academic internship — performance will be measured based on real business outcomes.

Internship Details:
- Duration: 20th May – July 2026 (3 months)
- Working Hours: 10:00 AM – 5:00 PM
- Location: Innov8, 4th Floor, R City Mall, Ghatkopar West, Mumbai 400086 (or Remote)
- Compensation: Performance-based (₹5,000 – ₹25,000+ based on targets achieved)
- Top performers may receive full-time offers

Selection Process:
- 1st April 2026: On-campus interview (NMIMS)

Role: Automation & Systems Engineer (Tech)

Objective:
Build scalable internal systems.

Responsibilities:
- Workflow automation
- System integrations

Output Metrics:
- Reduced manual effort
