Internship Opportunity at Stravex Technologies Pvt. Ltd.

Incubated at TBIF – IIT Ropar | Pre-Incubated at SINE – IIT Bombay

Location: Work From Home (WFH)
Duration: Minimum 4 Months (Including 1-Month Probation Period)
Mode: Hybrid

About Stravex Technologies Pvt. Ltd.

Stravex Technologies Pvt. Ltd. is a defence-technology startup focused on developing next-generation drones and autonomous systems for defence and commercial applications.

The company operates within the IIT startup ecosystem, having been pre-incubated at Society for Innovation and Entrepreneurship (SINE) at Indian Institute of Technology Bombay and incubated at Technology Business Incubator Foundation, IIT Ropar at Indian Institute of Technology Ropar.

Stravex works on technologies across drone systems, embedded electronics, artificial intelligence, and autonomous platforms. Interns gain hands-on exposure working with founders and engineers on real-world projects contributing to India's growing defence and surveillance technology ecosystem.
