# Internship Opportunity at Stravex Technologies Pvt. Ltd.

Incubated at TBIF – IIT Ropar | Pre-Incubated at SINE – IIT Bombay

Location: Work From Home (WFH)
Duration: Minimum 4 Months (Including 1-Month Probation Period)
Mode: Hybrid

## About Stravex Technologies Pvt. Ltd.

Stravex Technologies Pvt. Ltd. is a defence-technology startup focused on developing next-generation drones and autonomous systems for defence and commercial applications.

The company operates within the IIT startup ecosystem, having been pre-incubated at Society for Innovation and Entrepreneurship (SINE) at Indian Institute of Technology Bombay and incubated at Technology Business Incubator Foundation, IIT Ropar at Indian Institute of Technology Ropar.

Stravex works on technologies across drone systems, embedded electronics, artificial intelligence, and autonomous platforms. Interns gain hands-on exposure working with founders and engineers on real-world projects contributing to India's growing defence and surveillance technology ecosystem.

## Marketing Strategy and Growth Intern

Location: Work From Home
Duration: Minimum 4 Months (Including 1-Month Probation)
Stipend: ₹10,000 per month (after successful completion of probation period)
Working Days: Monday to Saturday (Flexible hours)

## About the Role

We are looking for a Marketing Strategy and Growth Intern who can help develop strong marketing strategies, build brand presence, and grow the company's digital platforms.

The intern will work closely with the founding team to design and execute campaigns that improve brand awareness and engagement.

## Key Responsibilities

- Develop and execute social media marketing strategies.
- Manage and grow Instagram, LinkedIn, and YouTube platforms.
- Plan digital marketing campaigns for brand visibility.
- Conduct market research and competitor analysis.
- Assist founders in growth and branding strategy.
- Monitor social media analytics and improve engagement.

**Required Skills**

- Strong understanding of digital marketing and social media strategy.
- Good research and analytical thinking.
- Strong writing and communication skills.
- Interest in startups, technology, and innovation.

**Perks and Benefits**

- Flexible working hours.
- Internship completion certificate.
- Letter of Recommendation based on performance.
- Opportunity to work within the IIT startup ecosystem.
- Possibility of a Pre-Placement Offer based on performance.

**Application Process**

Interested candidates may apply by sending their resume and portfolio to:

Email: info@stravextechnologies.com

Shortlisted candidates will be contacted for the interview process.
